DATE MAILED: 03/28/2003

Please find below and/or attached an Office communication concerning this application or proceeding.

Office Action Summary

Application No.	Applicant(s)	
10/018,332	HOFMANN ET AL.	
Examiner	Art Unit	
John m Cooney	1711	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

1) Responsive to communication(s) filed on _____.

2a) This action is **FINAL**. 2b) This action is non-final.

3) Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

4) Claim(s) 11-18 is/are pending in the application.

4a) Of the above claim(s) _____ is/are withdrawn from consideration.

5) Claim(s) _____ is/are allowed.

6) Claim(s) 11-18 is/are rejected.

7) Claim(s) _____ is/are objected to.

8) Claim(s) _____ are subject to restriction and/or election requirement.

Application Papers

9) The specification is objected to by the Examiner.

10) The drawing(s) filed on _____ is/are: a) accepted or b) objected to by the Examiner.
Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).

11) The proposed drawing correction filed on _____ is: a) approved b) disapproved by the Examiner.
If approved, corrected drawings are required in reply to this Office action.

12) The oath or declaration is objected to by the Examiner.

Priority under 35 U.S.C. §§ 119 and 120

13) Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f).

a) All b) Some * c) None of:
1. Certified copies of the priority documents have been received.
2. Certified copies of the priority documents have been received in Application No. _____.
3. Copies of the certified copies of the priority documents have been received in this National Stage application from the International Bureau (PCT Rule 17.2(a)).

* See the attached detailed Office action for a list of the certified copies not received.

14) Acknowledgment is made of a claim for domestic priority under 35 U.S.C. § 119(e) (to a provisional application).
a) The translation of the foreign language provisional application has been received.

15) Acknowledgment is made of a claim for domestic priority under 35 U.S.C. §§ 120 and/or 121.

Attachment(s)

1) Notice of References Cited (PTO-892)
2) Notice of Draftsperson's Patent Drawing Review (PTO-948)
3) Information Disclosure Statement(s) (PTO-1449) Paper No(s) 2&4.

4) Interview Summary (PTO-413) Paper No(s). _____
5) Notice of Informal Patent Application (PTO-152)
6) Other: _____

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

Claims 11-18 are rejected under 35 U.S.C. 102(e) as being anticipated by Thompson et al.(6,008,263).

Thompson et al.(6,008,263) discloses preparations of flexible polyurethane foams prepared from isocyanates and polyether polyols prepared in the presence of double metal cyanide catalyst and having molecular weights encompassing of those claimed by applicants (see the entire document). Thompson et al.'s disclosure is encompassing of the distributions and amounts of the various blocks in the polyols used as described by applicants' claims, and no distinction is seen to exist between the

reference's disclosed flexible foams and the foams defined by applicants' claimed foaming techniques as they are both directed towards flexible foams and it is the composition which defines the product being claimed in the instant case.

Claims 11-18 are rejected under 35 U.S.C. 102(e) as being anticipated by Lear et al.(5,958,994).

Lear et al. discloses preparations of flexible polyurethane foams prepared from isocyanates and polyether polyols prepared in the presence of double metal cyanide catalyst and having molecular weights encompassing of those claimed by applicants (see the entire document). Lear et al.'s disclosure is encompassing of the distributions and amounts of the various blocks in the polyols used as described by applicants' claims, and no distinction is seen to exist between the reference's disclosed flexible foams and the foams defined by applicants' claimed foaming techniques as they are both directed towards flexible foams and it is the composition which defines the product being claimed in the instant case.

Claims 11-18 are rejected under 35 U.S.C. 102(e) as being anticipated by Beisner et al.(6,066,683).

Beisner et al. discloses preparations of flexible polyurethane foams prepared from isocyanates and polyether polyols prepared in the presence of double metal cyanide catalyst and having molecular weights encompassing of those claimed by applicants (see the entire document). Beisner et al.'s disclosure is encompassing of the

distributions and amounts of the various blocks in the polyols used as described by applicants' claims, and no distinction is seen to exist between the reference's disclosed flexible foams and the foams defined by applicants' claimed foaming techniques as they are both directed towards flexible foams and it is the composition which defines the product being claimed in the instant case.

Claims 11-18 are rejected under 35 U.S.C. 102(b) as being anticipated by Hager (5,648,559).

Hager discloses preparations of flexible polyurethane foams prepared from isocyanates and polyether polyols prepared in the presence of double metal cyanide catalyst and having molecular weights encompassing of those claimed by applicants (see the entire document). Hager's disclosure is encompassing of the distributions and amounts of the various blocks in the polyols used as described by applicants' claims, and no distinction is seen to exist between the reference's disclosed flexible foams and the foams defined by applicants' claimed foaming techniques as they are both directed towards flexible foams and it is the composition which defines the product being claimed in the instant case.

Claims 11-18 are rejected under 35 U.S.C. 102(b) as being anticipated by Kinkelaar et al.(5,668,191)

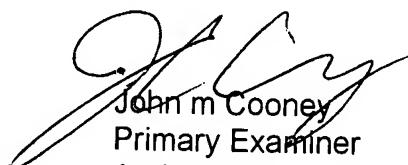

Kinkelaar et al. discloses preparations of flexible polyurethane foams prepared from isocyanates and polyether polyols prepared in the presence of double metal

cyanide catalyst and having molecular weights encompassing of those claimed by applicants (see the entire document). Kinkelaar et al.'s disclosure is encompassing of the distributions and amounts of the various blocks in the polyols used as described by applicants' claims, and no distinction is seen to exist between the reference's disclosed flexible foams and the foams defined by applicants' claimed foaming techniques as they are both directed towards flexible foams and it is the composition which defines the product being claimed in the instant case.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to John m Cooney whose telephone number is 703-308-2433. The examiner can normally be reached on M-F from 9 to 6.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, james seidleck, can be reached on (703) 308-2462. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9310.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is 703-306-5665.
